Docket No. 98N-1265

1776 '99 APR 29 A9:57

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: Formulary pharmacies have been serving patients for decades. It took a long time to work with formulary pharmacies throughout the USA in an effort to help patients (me) get customized care - designed especially for me - utilizing a team approach in which the pharmacist, the physician, and the patient work together to meet the patients (me) unique needs. If the formularies are forced out, then my medication choice will be curtailed and I'll no longer be able to get the specialized medication I need. I DO NOT support restricting the availability of individually compounded medication!!!
